Apr 13, 2012 ... **Darrell Z. D.**. Certified **High Performance Résumé Writer** ♦ Copywriter ♦ Sales, Advertising, SEO & Marketing Writer with ★★★★★ Reviews ...

In summary, **this is SEO domination** against intense competition with major advertising budgets! The giants of the résumé writing business Monster.com, CareerBuilder.com, JobFox.com, Ladders.com, and Ladders.com Executive Service all spend at least five figures on their annual Internet advertising efforts. Furthermore, they were well established on the Internet years before my Internet Marketing and SEO efforts began. Fortunately, SEO, Copywriting and Internet Marketing skills are a great asset of mine so I survived and thrived on the Internet. My clients have done likewise. **All these efforts help you long-term.**

How did I ever come up with this popular keyword (natural search engine term) that is also highly profitable, descriptive and memorable? How did I dominate this keywords search engine results on Google, Yahoo, AOL and Bing to crush my competition? **Research on consumer psychology, consumer behavior, knowing the target market and what motivates them, listening to client feedback, competitive intelligence, decades of helping clients as a Copywriter and SEO consultant. Besides that, I have continually learned new strategies, trade secrets, tested and researched new ideas for over two decades.**

**More importantly, I understand winning Internet marketing concepts that are universally successful regardless of the product or service they promote.** In other words, there is no easy shortcut that anyone can sell you. Successful Internet Marketing and SEO is the result of consistent effort. It is a race between you and 5 million of your closest competitors. Without professional help and a master plan, I guarantee that you will waste tens of thousands of dollars annually.

<http://WordsThatSell247.com> and <http://BarracudaCopywriting.com> results.

The **independent third-party evidence** above is designed to give you indisputable proof of my Copywriting talents and Sales, Advertising, Marketing and SEO expertise. If your business had this kind of Internet traffic and sales revenue, you would be on a Hawaiian vacation right now. All Information here is provided via screen snapshots from: Alexa.com, Google, Bing, Yahoo and AOL. **Isn't it time you invested in yourself?**

Keep in mind, the two résumé writing websites are micro-niche businesses. The main category would be Sales, Marketing and Advertising Services, then Writing Services then Professional Résumé Writers next we want the elite writers only hence the term High Performance Résumé Writers. Most micro-niche businesses must spend significantly every year to keep the business coming in. This kind of success with three micro-niche businesses speaks volumes. This is like the ultimate challenge for a veteran Copywriter, and Advertising, Marketing and SEO expert.

**Why just hope for success when you can guarantee it instead? What if your website converted 300% more browsers into buyers? Isn't it time you said YES to success?**

**How much would your sales and profits increase if your business was found by 100% to 300% more people on the Internet this year?**

**Do you have an ordinary website or an automated income-producing machine?**

**Could you "handle" a lifestyle of leisure, fun and travel with websites that produced monthly revenue on autopilot? Could you stay humble after you make it big?**

If you are not going to invest in your own business who will?

If not now when?
